

# PTCB Credentials at a Glance

PTCB credentials enable technicians to work more efficiently with pharmacists to offer safe and effective patient care and services.

PTCB offers credentials to individuals who wish to distinguish themselves in the pharmacy technician field and build rewarding careers in healthcare. PTCB **Certifications** and PTCB **Assessment-Based Certificates** serve two distinct purposes.

## CERTIFICATIONS

Certifications assess an individual's mastery of job knowledge, require continuing education, and award an acronym after the recipient's name.

### **Certified Pharmacy Technician (CPhT)**

A first step toward a rewarding career in healthcare, CPhT is fundamental across pharmacy settings for advancing medication safety and supporting the pharmacy team.

### **Certified Compounded Sterile Preparation Technician® (CSPT®)**

For CPhTs working in sterile compounding, CSPT demonstrates specialized knowledge in sterile preparation.

### **Advanced Certified Pharmacy Technician™ (CPhT-Adv™)**

CPhTs who demonstrate advanced knowledge and an unwavering commitment to advancing medication safety are recognized with CPhT-Adv.
